ABOUT MYSELF

Dedicated Web Application Development student with a strong work ethic and professional experience in fast-paced environments. I am highly motivated to work hard, learn from the team, and contribute to the company's goals during my Erasmus internship. I consider myself a responsible and proactive fast-learner, eager to apply my technical foundations in an international professional setting.

WORK EXPERIENCE

01/09/2023 – 03/10/2024

Assistant Store Manager / Sales Assistant | "Tiendas MGI" – Nueva Condomina Shopping Mall, Murcia, Spain

Website: www.tiendasmgi.es

▪ *Acting Assistant Store Manager:* Appointed to take on second-in-charge responsibilities for several months. My tasks included team coordination, shift scheduling, and managing inventory procurement by placing direct orders to ensure optimal stock levels. Additionally, supervised daily operations, and managed store opening and closing procedures.
▪ *Customer Service & Sales:* Assisted customers with inquiries and managed transactions at the cash desk with accuracy and efficiency.
▪ *Logistics & Stock Management:* Responsible for unloading pallets, organizing large shipments, and ensuring efficient shelf replenishment.
▪ *Maintenance:* Ensured the store and warehouse were kept clean, organized, and professional at all times.

Business or sector Retail / Consumer Goods

01/12/2021 – 31/07/2022

Hypermarket Cashier / Sales Assistant | "Hiper Asia Thader, SL" – Murcia, Spain

▪ *Cash Management & Accountability:* Oversaw daily cash register closures for the team, consolidating funds from multiple cashiers to ensure accounting accuracy before securing them in the company safe.
▪ *Supervisor & Conflict Resolution*: Acted as the first point of contact for customer complaints and escalated issues. Resolved day-to-day problems effectively to ensure customer satisfaction, reporting only major incidents to the Store Manager.
▪ *Inventory Control:* Managed stock replenishment and organization in a high-volume retail environment with thousands of different products.

Business or sector Retail / Consumer Goods

EDUCATION AND TRAINING

01/09/2024 - Current

Higher Vocational Training: Web Application Development bilingual (English)   EQF LEVEL 5

IES Francisco de Goya, Molina de Segura, Spain

Focused on the full software development lifecycle, including database management, framework-based frontend/backend programming, and secure deployment. This is complemented by foundational AWS cloud knowledge, specifically in configuring VPCs and servers while simulating production-ready environments.
▪ Full Technical Curriculum & Learning Outcomes: Link to Diploma Supplement

1/09/2017 – 01/06/2019   Bachillerato (High School Diploma): Social Sciences   EQF LEVEL 4

IES Rector Francisco Sabater, Murcia, Spain

Principal subjects and skills acquired:

▪ Advanced Mathematics & Statistics: Developed logical thinking and data analysis skills.
▪ Business Organization: Foundational knowledge of how companies and economies function.

Levels: A1/A2: Basic user - B1/B2: Independent user - C1/C2 Proficient user
Common European Framework of Reference for Languages

Soft skills

▪ *Teamwork and collaboration:* Proven ability to work effectively in multi-disciplinary teams. I developed these skills in previous professional roles, where coordination with colleagues was essential to ensure a smooth workflow and achieve collective goals.
▪ *Proactivity and self-reliance:* I am capable of working independently and researching technical documentation to solve doubts.
▪ *Reliability and time management:* I am highly disciplined with deadlines and prioritize punctuality as a core professional value. I am used to organizing my tasks to deliver quality results.
▪ *Adaptability and cultural awareness:* I have a strong interest in international environments and I am eager to adapt to new workflows and different professional cultures during my Erasmus.

Technical competencies

▪ **Full-stack Web Development**: Capable of developing both frontend and backend solutions using languages like Java, Python, PHP (with foundational knowledge of the Laravel framework), and JavaScript to build functional and responsive web applications.
▪ **Database Design and Management**: Solid experience in creating, managing, and optimizing relational databases using MySQL and Oracle, ensuring data integrity and efficient queries.
▪ **Cloud Infrastructure Awareness (AWS)**: Foundational knowledge of cloud computing, with the ability to launch and configure VPC (Virtual Private Cloud) instances and EC2 servers through the AWS Skill Builder platform.
▪ **Code Debugging and Optimization**: Systematic approach to identifying, troubleshooting, and fixing software bugs to improve application stability and performance.
▪ **Basic Version Control (Git/GitHub)**: Familiar with the basic workflow of Git, including managing repositories and performing essential updates to keep projects organized.
▪ **Technical Documentation with Markdown**: Experience in creating clear README.md files to document project features, installation steps, and basic technical requirements.
